

New Covenant School

Additional Registration Information From Middle School Students

20__-20__

These are **additional** registration forms for middle school students only. All 6-8th grade students, both new and returning students, must fill out these forms and submit them along with the standard registration packet.

Please note that the tuition fee for 6-8th grade students is \$65 per month.

This packet includes a three-year worksheet for middle school. Students in middle school must complete three years of English, three years of Math, three years of Science and three years of Social Studies in order to be promoted to high school. The Social Studies requirement includes a one-semester course in Civics to be taught in sixth, seventh or eighth grade. In addition a one-semester course in Career Exploration must be completed in seventh or eighth grade.

The English, Math, Science and Social Studies requirements will be verified from the monthly reports. In order to document completion of the Civics and Careers Exploration requirements, the student will bring in his/her work **at the end of the semester** in which the work was completed for verification by one of the office staff.

Any courses taken for high school credit during seventh or eighth grade must be listed on the middle school worksheet and brought in for verification by one of the office staff. Prior approval must be obtained from the Principal for credit to be awarded during middle school years. Typically this credit is limited to Foreign Language and Algebra courses.

In completing the attached Middle School Worksheet, fill in names of expected curricula. This info can change as your plan progresses. For example, you might list "Saxon 65" for 6th grade math. You might list "Bob Jones English 8" for 8th grade grammar.

If you need help with this form, please feel free to set up an appointment and we will be pleased to assist you.
